Hello

About Us

Procurement Services is a market-leading provider of procurement solutions & contract management, and our focus is on providing compliant routes for the UK public sector to procure products & services from local, national & global suppliers. All our solutions give complete peace of mind when it comes to procurement.

Knowledge

With over 100 years of collective experience dealing with the public sector, everyone at Procurement Services can call upon the vast amount of knowledge & experience we have as a team to ensure we can assist you with even the most complicated of queries.

Support

Every member of the Procurement Services team is just a phone call away. We are here whenever you need us to help support you through the process, offer advice & ensure you achieve the procurement outcome you are looking for.

Choice

We work with some of the top suppliers & manufacturers in their industries. All our solutions ensure that you get the best products & services on the market from vetted, trusted suppliers.

Why choose Procurement Services?

We strive to offer the best customer experience to ensure that all public sector organisations are confident in their decisions when procuring high value products & services. Some of the reasons why you should choose Procurement Services include:

Compliance

All our solutions deliver compliance at their core, so public sector organisations can feel assured in their procurement & contract management decisions.

Easy to use

All our solutions are convenient & simple for all customers to access. We help make the end-to-end procurement process as easy as possible to ensure the desired outcome is achieved.

All our frameworks are in accordance with the relevant procurement legislation (**Public Contracts Regulations 2015** or **Procurement Act 2023**), meaning our frameworks portfolio gives public sector organisations choice depending on their internal procurement objectives. As well as being able to offer full compliance & strong buying power, our frameworks provide terms & conditions that are designed specifically for the public sector.

Driving Social Value

Social value is an increasingly important way in which we look to support our customers and communities throughout the UK. Social value has a 10% weighting within every single new framework, so we can be certain that we are awarding suppliers who are committed to contributing to communities.

“ The entire process, from setup to final procurement, was remarkably quick and straightforward. The clear guidelines made it easy for our team to navigate and utilise the framework effectively. This streamlined approach not only saved us valuable time but also ensured that we could allocate our resources more efficiently. We highly recommend Procurement Services to other public sector organisations looking for a reliable and hassle-free solution.

New Lease Procurement

We simplify the procurement process by reviewing all available funding options - both at the outset and across the contract term. We assess suitable lease types for each department and run fully compliant mini-competitions to secure the best deal.

Accountancy Changes (IFRS 16)

With the introduction of IFRS 16, new leasing options are now available. Our team offers expert guidance to help you adapt, providing support for business cases that maximise the effective use of both capital and revenue budgets.

Negotiation Expertise

Backed by strong industry insight and trusted relationships with lessors, we negotiate on your behalf to secure favourable terms - saving your organisation valuable time and money.

Portfolio Review

Our specialists carry out in-depth reviews of your current lease portfolio, identifying opportunities to restructure agreements for improved terms and potential cost savings.

Lease vs Purchase Analysis

We help you make well-informed decisions with tailored lease vs purchase comparisons, ensuring you get the best value for your organisation.

Capital Planning

We'll help you gather the data you need and populate your replacement plan in our online system, which stays dynamic as costs, risks, or new information change. With clear whole-life costs for each asset, you'll be able to navigate funding gaps, assess options, and choose the best timing and method for equipment replacement.

Procurement Services Lifecycle

Get to know Procurement Services Lifecycle

Lifecycle is dedicated to supporting public sector organisations with a comprehensive suite of solutions designed to enhance contract management and procurement processes. This includes solutions such as the Lifecycle Index™, contract management, supplier relationship management, procurement, further competition support, performance, and KPI monitoring.

Contact us at: lifecycle@csLtd.org.uk

Supplier Relationships

We ensure that the true value of a contract is realised through its implementation, delivery, and ongoing management. By tracking supplier performance against established KPIs and leveraging our relationships with hundreds of public sector suppliers, we manage successful contract delivery. Effective Supplier Relationship Management (SRM) leads to better relationships, innovation, and improved outcomes.

Lifecycle Index

The Lifecycle Index™ measures the effort and focus an organisation should allocate to each contract based on spend, risk, and complexity. This helps maximise investment and prevent value loss. By assessing contracts against ten quality activities, the index provides benchmarks and identifies issues at both contract and organisational levels, guiding the prioritisation of improvements and resource allocation.

Contract Management

Our procurement team, with over 30 years of public sector expertise, secures services at optimal price, quality, and quantity. Using a comprehensive suite of tools and the OPTIMiSe technology platform, we transform contract management into a proactive tool for savings and operational excellence. Our five-step process includes validating contracts, analysing spend, planning improvements, implementing controls, and measuring performance.

Procurement/Category Management

We offer a whole-of-market approach to sourcing, know when and where to test markets, and choose the best procurement routes. Our trained professionals ensure compliance with regulations, deliver savings, and set appropriate KPIs, all while speaking the language of your stakeholders.
